Health Officer Townshend says in regard to the protest of the citizens against any dissecting rooms being allowed in the thickly settled neighborhoods, as printed in yesterday's Evenino Post, that he does not think the Georgetown Medical College can be forced to move its dissecting room, because it is regularly chartered. He says he will insist on the rooms being put in better condition. In regard to the present arrangement, he says the architect neglected to make the proper provisions for a dissecting room, and instead of providing a ventilating shaft to carry the odors upward he made the windows the only means of letting out the smell. A dissecting room, he says, is as healthy as a parlor, but for those unused to its odor it is disagreeable, and for that reason he is ready to indorse the protest of the citizens.

It took place at St. John's Protestant Episcopal Church on H street,

distinctly unpleasant, there were compensations even in the drizzling rain. It prevented the gathering of the crowd which would undoubtedly have besieged the church had the sky been clear. It had been feared that as the invitations to the ceremony were verbal and no cards to the church had been distributed, the edifice would have been crowded with uniquited guests.

To prepare against this emergency seats had been allotted to all of the invited guests by number; but while a great many persons presented themselves at the church, who were evidently not among the guests invited, there was no crowding for admittance, and the throng on the sidewalk awaiting the coming of the bride and groom was very small.

Before the arrival of the wedding party

the President and Mrs. Cleveland and most of the invited guests had entered the church and been shown to their

seats.

The ushers were W. V. R. Berry, Woodbury Lowery, Blair Lee and Sigourney Butler.

The front seat on the left hand side of the center aisle had been reserved for Mr. and Mrs. Endicott, Miss Clara Payson, their niece, and W. C. Endicott, jr. Directly behind this pew were arranged the relatives of the bride and near friends of the family as follows:

The Ceremony.

The ceremony was performed according to the rites of the Episcopal Church by Rev. W. A. Leonard, of Washington, assisted by Rev. J. H. Franks, of Salem, Mass. At its conclusion the bride and groom walked down the aisle, followed by the bride's family and the ushers. They were driven immediately to the Endicott mansion, where they were fol-lowed shortly afterwards by the relatives and guests, to whom a wedding breakfast was served.

THE REPUBLICAN PARADE.

A Great Turnout Despite the Inclement Weather.

Rain began to fall shortly after the Republican procession started last night, and before the line of march had been covered it poured down in sheets. But t didn't appear to dampen the ardor of the paraders. They asked in just as loud shricks for the whereabouts of "Grover," and replied, without waiting for an answer, that he was "in the soup," as if it were the balmlest night imaginable. They demanded, "How's President Harrisou?" as vociferously as if they didn't know the prompt and unanimous rejoinder would be, "He's all right!" with the emphasis on the "right.

with the emphasis on the "right."

It was a time for general freedom and jolity. Even the Democratic on-lookers caught the spirit of the occasion to a slight degree and swelled the throng that lined the Avenue and the other streets to which the procession was to pass. The sidewalks were packed and thousands took to the asphalt. If the Suitan refused to indemnify the German Government for losses the German authorities would sequester the customs

duties in African coast towns.

The East Africa Company, he said will start work afresh, supported by an armed force of negroes not under the influence of the Arabs. Operations will be extended into the interior after the routes to lakes Tanganyika and Vic-tory Nyanza have been made safe. MRS. SHAW GRANTED A DIVORCE. Marriage a Failure in the Case of the Whistling Prima Donna.

New Your, Nov. 15.—Judge Barrett has granted an absolute divorce to Mrs. Alice J. Shaw from W. H. Shaw. The plaintiff is the famous whistling prima donna. The decree was entered on October 31, and escaped notice.

Mr. and Mrs. Shaw were married in 1873 in Elmira. The young bride's maiden name was Horton. Her husband took her to a handsome house in Detroit. He was a widower, with four little boys, and had a prosperous wholesale notion business. Two daughters were born to them in Detroit Mr Shaw failed in business five years later and the family removed to this city. Here two more

ughters were born. After an ineffectual struggle to main tain them all by dressmaking, the wife gave it up and returned to her father. Her children and her husband went, too, Her children and her husband went, too, but three years ago Mr. Shaw started out again to make a living for himself and never returned. The divorce is granted on statutory grounds and the three surviving step-sons, now adults, were on Shaw's side in the contest with

their father. A report was recently published that Mrs. Shaw intended to marry a California millionaire when she secured her divorce. There is no truth in this story. The necessity for taking care of four children, all girls, stimulated Mrs. Shaw to the development of her natural gift of whistling into an artistic accomplish-

ment.

He has been out for a ride or a walk every day since his return—in fact, has given considerable elasticity to his physician's order as to open air exercise. He attends the theaters, and a few days ago discarded his crutches and cancaltodiscarded his crutches and cane alto-gether. His knees are still quite weak, but he feels a steady improvement, and begins to realize that he is becoming his old self once more.
"No one but myself knows how sick a

man I have been," he said yesterday.
"Mine was not a single ailment, but a complication of troubles, involving nearly all the vital organs. For some days I was a maniac, and it took four or five strong men to restrain me from jumping out of the window. After all was over and I was mending satisfactorily, I asked my physician to tell me just what my troubles were, and he did so. I had five diseases at one and the same time, any one of which ordinarily is liable to prove fatal, but I pulled through. As to the primary cause of the trouble, I know, as well as my friends do, that I thought I had an iron constitution, which no amount of battering could break down. "I was mistaken, as I discovered after

recklessly going without food frequently for days at a time. I lost all appetite, my stomach became weakened and then came the complication of troubles I speak of. It is now seventeen weeks since I have allowed anything but what a strict temperance man would approve a strict temperance man would approve of to pass my lips, and it will be tryenteen years before I again do anything that will have the least tendency to causa recurrence of the trouble I have just overcome. I think that two or three weeks more will bring me out all right, and that in three words I will be and that in three months I will be stronger and better man all around than ever before, and in this opinion I am fortified by the statement of my physi-

MR. GLOVER'S SECRETARY.

The Missouri Congressman Goes on the Stand and Relates His Experience.

James H. Graham, formerly confidential secretary to Congressman Glover, made his appearance at 10 o'clock sharp this morning in the Criminal Court, accompanied by his counsel, E. B. Hay. His accuser, the Congressman, did not

appear until a few minutes later.

Mr. Lipscomb stated the case to the Government. Graham had been employed as a confidential secretary to the prosecuting witness. After his dischargene entered the house through a window.

Mr. Glover took the stand and stated

that Mr. Graham, after having been in his employ for a year or fifteen months, was discharged on the 8th of the month. His house was entered on the afternoon of the 10th and a chest of drawers stand-ing to the right of his desk was opened by some one and some papers belonging to Mrs. Patten and to himself were taken.

The papers were the court papers, party in the case of Anastasia Patten against Robert I. Fleming for the recovery of alleged overcharges in building the house 2122 Massachusetts avenue. There were other papers belonging to him which were taken. He saw Mr. Graham enter the rear door of the house about thirts mustes before he discovered.

The witness, on being cross-examined by Mr. Hay, said that he discharged Mr. Graham because he was intoxicated, an had been intoxicated, and for other rea sons. Witness was a member of Congress from the Ninth Missouri district. and his term expires the 4th of next March. He became acquainted with Graham through the latter's dorng some work for him in the case in which his election was contested by his Republican competitor. He brought Graham on to Washington, where he was employed as a "clerk" (and the Congressmen gave the word a rather disagreeable emphasis.) His clerical duties extended to the work of preparing briefs for attorneys at large, through the institution called "Glover's Legal Index."
He denied that Graham was the man

ager of that concern; he was paid a hundred dollars a month for doing the work. Graham, he said, did not fuifill his duties satisfactorily.

"Was he not the attorney of record in a number of cases?" "Yes, sir, as my employe."
He stated that since his discharge

Graham's name has been withdrawn from the records. "Is he not now attorney of record in the case of Shea vs. Patten?" "I might have been using him in that way. If his name was not withdrawn it

was an oversight. I paid him \$100 a month for his services."
Did you pay him?" asked Mr. Hay.
Glover explained that in the morning he discharged Graham because of his in-toxication telling him that because of his family, and in order to give him a chance to look around, he would pay him for the remainder of the month. He was quiet and respectful, but in the afternoon he returned and told Glover with considerable violence that he dared

not discharge him—he knew too much. When asked why he did not follow Graham when he saw him going to the Granam when he saw him going to the house Glover replied that he was afraid of a street squabble.

He denied having disconnected the wires of his door bell, had given orders to allow no one to come into the house, because he was absent a good deal of the time and he desired in the closet.

time, and had some silver in the closet.

He admitted that objection had been made to his appearance in the Patten case because he was a member of this bar. He did appear, however.
